Build Your Career With Eastforest Homes!

Career opportunities in the housing industry go far beyond the trades. There is tremendous need for bright, motivated people who bring a broad diversity of talents and skills to the table. And when you build your career with Eastforest Homes, you'll quickly realize it's a great place to settle down.

Opportunities Await In...

Estimating

Estimating involves breaking blueprints down into every nail, brick and piece of lumber required, budgeting the cost and then tracking both the costs and materials at every step of the construction process. Graduates in Mathematics as well as Civil and Structural Engineering would find a career as an estimator with Eastforest Homes interesting and rewarding.

"Estimating gives you knowledge about the building industry you just won't find anywhere else."

Simon Ager,
Senior Estimating

Human Resources

Eastforest Homes is the perfect opportunity to begin a career in HR. You'll be involved in benefits, recruitment and selection, WSIB, career planning and counseling and training and development. And Eastforest Homes is the kind of employer who will assist you in furthering your professional education. If you have a General BA or Community College training such as the Certified Human Resources Professional (CHRP) designation, get your HR start with us.

Information Technology

Today's housing industry is driven by technology and Eastforest Homes is no exception. Advanced computer systems help maintain profitability, monitor performance and make forecasts. Custom programs quickly and accurately calculate housing costs, track inventory and schedule construction. If IT is your calling, give Eastforest Homes a call.

"When I first came here, I didn't appreciate how technically dependent the housing industry is."

Mike Zebroski,
Software Developer

Engineering

Drafting house plans, developing subdivisions, designing condominiums and surveying all require skilled and knowledgeable people with training in Construction Engineering Technology, Architecture, Urban Planning and Engineering. Why not put your training to work at Eastforest Homes?

Start Building Your Future Today!

As the #1 home builder in the Kitchener-Waterloo region, Eastforest Homes is a progressive employer that gives employees every opportunity to succeed. What's surprising to many is the number and variety of opportunities there are. So take a closer look and start laying the foundation of your career with Eastforest Homes.

Advertising and Graphic Design

Selling homes is just as important as building them and that's where talented graphic designers come in. Eastforest Homes is in an in-house environment where your ideas are important and your skills will be put to good use. You'll work on everything from advertising and brochures to web site design, signage and corporate branding. If you're looking for a creative and fast-paced place to work, look at Eastforest Homes.

"An in-house creative department is great. You get to work on everything!"

Jenn Gruneberg,
Senior Graphic Designer

Landscape Design

Designing landscapes for new home owners. Working with municipal officials. Ensuring proper grading and drainage layouts. Working on large condominium complexes. Getting your hands dirty with installations. You can cover it all in a hands-on learning environment at Eastforest Homes.

Finance

Building houses is big business that depends on top financial managers and planners. Cash flow must be managed closely. Detailed monthly and annual financial reports are required. Constant business analysis is a must. Graduates with Bachelor of Commerce and Business Administration degrees as well as individuals seeking to pursue CMA and CGA designations can find rewarding career opportunities with Eastforest Homes.

"The housing market is extremely competitive so you have to be able to understand how to manage the financial risks."

Mike Hallett,
Chief Financial Officer
